- Services Report- January 2022

## SERVICES REPORT – January 2022

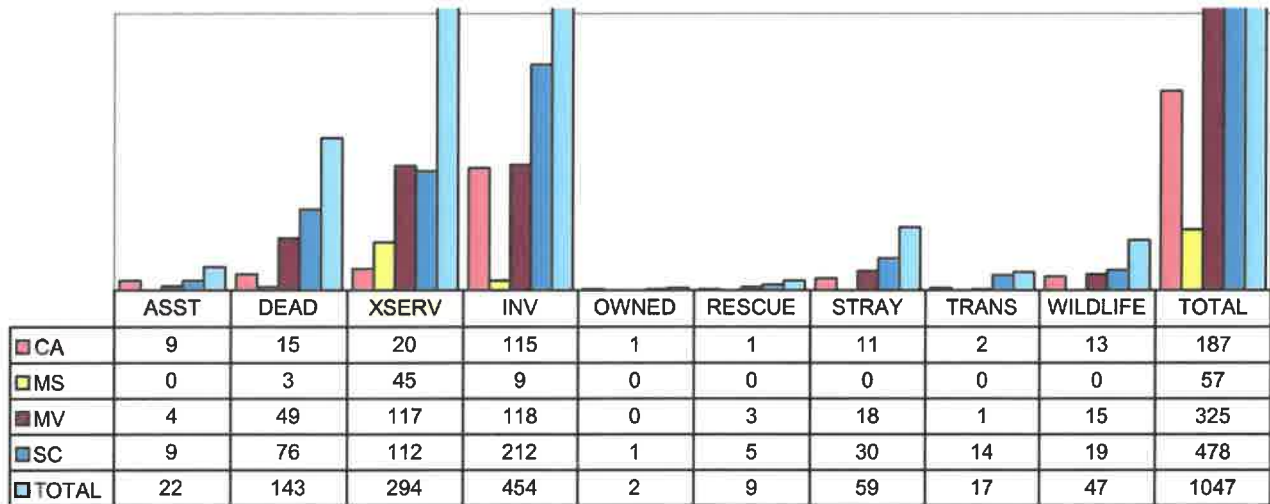

### Introduction

This report provides graphs, tables and explanatory narratives covering five categories of information: field service calls, violations and citations issued, animals impounded, animals licensed, and animal outcomes. SVACA’s fiscal year is July 1 – June 30.

### 1. Field Service Calls

Graph 1 is total service calls by Jurisdiction and Type and Graph 2a and 2b show the Sub-Types. Tables 1 and 2 are a comparison of fiscal years 2021-22 and 2020-21.

**Graph 1 - Total Service Calls by Jurisdiction and Type for November/December FY 2021-22**

ASST = ASSISTANCE      XSERV = EXTRA SERVICE CALL      INV = INVESTIGATIONS      TRANS = TRANSPORT

### Year to Date Comparison of Service Calls for FY 2021-22 and FY 2020-21

**5. Animal Outcomes**

The following tables reflect how our dogs and cats were outcomed at the center for the reporting period. The following is based on the Asilomar Accords ([www.asilomaraccords.org](http://www.asilomaraccords.org)) which were generated by animal welfare professionals as a way for agencies to accurately report a “Live Release Rate,” or how many animals had favorable outcomes. It also reports and categorizes why animals were euthanized. SVACA places all “healthy” and “treatable” animals as well as many “unhealthy” animals. SVACA’s Animal Care Center is “no kill” as we annually save greater than 90% of animals received.

## ANIMAL CARE CENTER ACCOMPLISHMENTS AND HIGHLIGHTS

- SVACA's team continued to work through all pandemic related safety protocols due to yet another variant. Unfortunately, one of our team members fell ill with COVID-19 in early January. Due to our protocols there was no spread to others at the center.
- The demand for service and animal intakes continued at prepandemic levels. The center continues to see more and more of the public returning to use our services and programs.
- As we close the books on 2021, we are so very proud to report that we once again operated a "No-kill" program which resulted in saving 98% of our animals. This is truly astounding considering how challenging of a year it has been. We are thrilled by our continued accomplishments which could not have been done without our Board of Directors, team members, member agency staff, Friends of SVACA, volunteers, foster parents, placement partners, and donors. It absolutely takes a village to do all SVACA does for the community and we whole heartedly thank everyone who played a role in SVACA's success.

## OUTREACH

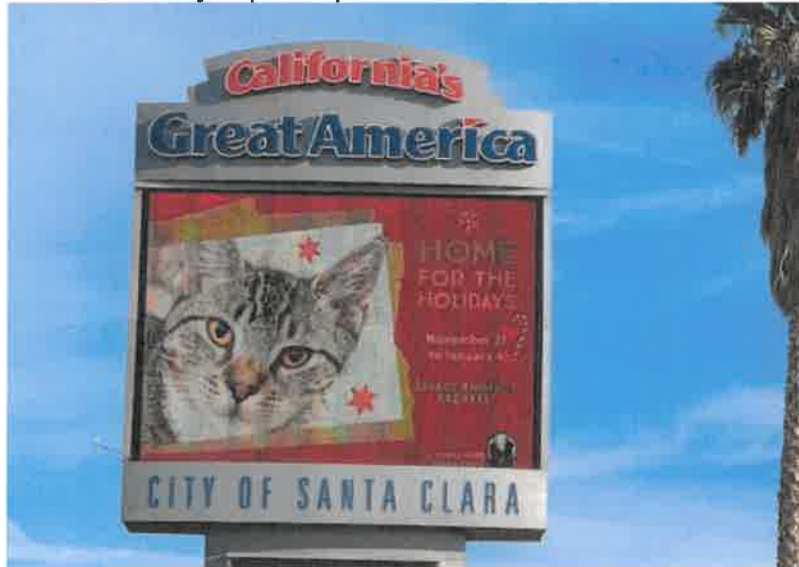

- Fundraising
  - We sent our year end appeal to coincide with Giving Tuesday. The community responded despite it being yet another tough year for so many to help raise \$22,243 for the Animal Assistance Fund.

*Giving Tuesday push on social media and through an electronic letter brought results!*

- Volunteers
  - In November and December, we held five volunteer orientations and onboarded 51 recruits.

- We held a dog mentoring class, attended by 10, to train new volunteers dog socializing skills.
- Marketing
  - Our Home for the Holidays special placed 62 animals into their forever homes!

*Our Home for the Holidays promo was up on the Great America billboard on 101 for all to see!*

- Outreach
  - We tabled at Santa Clara's Tree Lighting in Central Park on December 3.
  - The COVID-19 Relief Fund/Companion Animal Cupboard has continued to help our community's residents impacted by the pandemic. We've spayed, neutered, and vaccinated animals and continue to provide food and supplies monthly to participants.

### **SHELTER TEAM**

- The following are a sampling of adoption cases that highlight the good work that staff does in an effort to find lifelong homes for all of our animal guests.
  - Jackson was surrendered to SVACA when his owner passed away. At 11-years-young, this senior fellow still had a lot of pep in his step and was a total lovebug. He won the hearts of staff and volunteers immediately. A lovely family fell for this handsome and sweet boy and decided to adopt him. We're happy to report he's doing well!

*Cheers to the good life, Jackson!*

- Linc was surrendered due to his owner's health declining and inability to continue to care for him. It took a little bit of time for Linc to get adjusted without his long time companion by his side. Over time, Linc began to open up from the extra TLC he received from our team. His outgoing and super affectionate personality couldn't be stopped! Though he was already 11 years old, the first person he met for a potential adoption just couldn't leave without taking him home. The adopter and her small dog immediately bonded with Linc. A recent update from his new family tells us that he has claimed his own spot on the couch and has lots of energy to keep them busy!

*Linc found the best seat in the house!*

## **MEDICAL TEAM**

- The following are a sampling of the good work that our medical team does day-in and out as we attempt to make sick and injured animals healthy so they can be adopted, released to a placement partner, or returned to their owner.
  - A Boston Terrier mix was reported in Mountain View after following a citizen on her bike. Animal Control Officer Morris went to the area to find the pooch running in and out of traffic, bringing this little girl back to the Center. Officer Morris could see a large wound that was superficial and healing. There was also a bluish/purple "ink" on her coat around the wound. Our medical team applied a topical cleansing and antibiotic spray to the injury. The colorful décor was likely an over-the-counter antiseptic spray often used in large animal medicine. Our medical team named her Violet for the lovely shade of purple on her coat. She was adopted quickly, the day she moved into the adoption gallery, and renamed Minnie by her new family.

*An ombre for the ages!*

- In late November, a senior orange tabby DSH, was captured in a humane trap at a nearby Santa Clara industrial area. Our medical team treated a wound at the tail base that was not actively bleeding. The wound was suspected to be an abscess that had ruptured; not an uncommon occurrence for intact community cats. The medical team treated the wound and after several weeks of ongoing care, he was healed enough to return to his colony vaccinated, microchipped and neutered.

*This poor little one would have most likely been euthanized if he had arrived at a different shelter.*

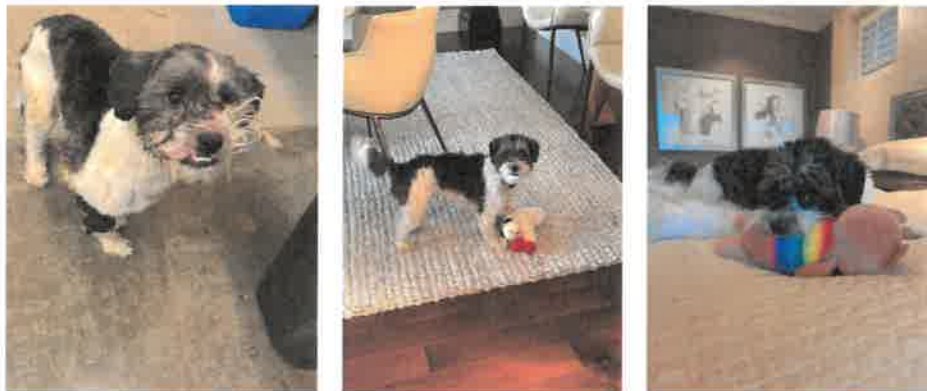

- A local trapper assisted a Santa Clara resident who had seen several cats in the neighborhood which led to Kenny arriving at SVACA's Animal Care Center with his sister Dolly. Dolly had a mild upper respiratory infection and Kenny had a gastrointestinal infection. They were started on antibiotics and sent to foster care for TLC. About 2 weeks later they were well past their illnesses and on their way to being cuddly kittens. Both were adopted for the new year!

*From hissy to snuggly!*

### **FIELD SERVICES TEAM**

- In Santa Clara, Officer Morris responded to a call from the police department requesting her assistance regarding a dog in distress inside of a vehicle. Upon arrival, Officer Morris observed a Shih Tzu whose limbs and mouth were bound with duct tape which prevent him from barking and escaping the vehicle. The dog was immediately seized and the tape was removed. The owner was arrested and charged with violating Penal Code 597 “Crimes against Animals,” and is currently awaiting trial. Amazingly, this canine did not let this experience phase him in the least and his happy-go-lucky personality got him adopted into his fur-ever home right away! His new name is Prince Harry.

*Prince Harry's fairy tale story is just beginning!*

- In Campbell, Officer Morris responded to 2 skunks stuck in a storm drain in the middle of a grassy area at Campbell Park. The grate was stuck, and human power was not enough to remove it. City workers were nearby and had access to a backhoe which they used to remove the grate. The skunks were carefully and quietly removed from the drain and released into brush along the Los Gatos Creek Trail.

*Skunks often need rescue due to their ability to coexist so well with humans.*

- In Campbell, Officer Guerrero-Aguirre responded to a report of an injured coyote in the backyard of a home. The coyote appeared to have an injured leg and was not very mobile. The coyote was safely captured and transported to the Wildlife Center of Silicon Valley for care.

*Coyote sightings and rescues are now quite common in all SVACA cities.*

- In Mountain View, Officer Morris responded to a report of an injured hawk who found a comfortable spot to rest on the hood of a car. The hawk did not look well and was unable to see due to an illness. The hawk was safely captured and transported to the Wildlife Center of Silicon Valley for care.

*At times, raptors often require our help as they cope with the challenges of being 'wild' in urban areas.*
