AGENDA ITEM NO.6 Meeting Date: 1/25/23

SILICON VALLEY ANIMAL CONTROL AUTHORITY

Department Statistics

RECOMMENDED MOTION

That the statistics of SVACA activity be received and filed.

DOCUMENT ATTACHED

• Services Report- January 2023

SERVICES REPORT – January 2023

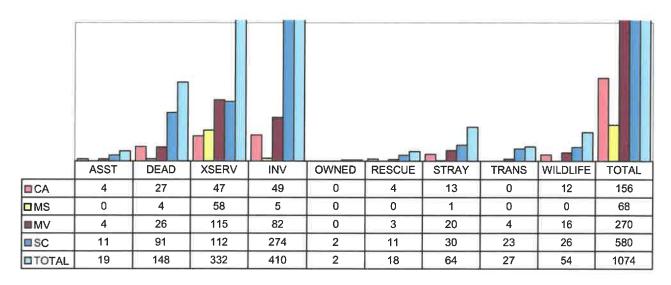

Introduction

This report provides graphs, tables and explanatory narratives covering five categories of information: field service calls, violations and citations issued, animals impounded, animals licensed, and animal outcomes. SVACA's fiscal year is July 1 – June 30.

1. Field Service Calls

Graph 1 is total service calls by Jurisdiction and Type and Graph 2a and 2b show the Sub-Types. Tables 1 and 2 are a comparison of fiscal years 2022-23 and 2021-22.

Graph 1 - Total Service Calls by Jurisdiction and Type for November/December FY 2022-23

ASST = ASSISTANCE

XSERV = EXTRA SERVICE CALL

INV = INVESTIGATIONS

TRANS = TRANSPORT

Year to Date Comparison of Service Calls for FY 2022-23 and FY 2021-22

5. Animal Outcomes

The following tables reflect how our dogs and cats were outcomed at the center for the reporting period. The following is based on the Asilomar Accords (www.asilomaraccords.org) which were generated by animal welfare professionals as a way for agencies to accurately report a "Live Release Rate," or how many animals had favorable outcomes. It also reports and categorizes why animals were euthanized. SVACA places all "healthy" and "treatable" animals as well as many "unhealthy" animals. SVACA's Animal Care Center is "no kill" as we annually save greater than 90% of animals received.

ANIMAL CARE CENTER ACCOMPLISHMENTS AND HIGHLIGHTS

- Our team has done an outstanding job of placing 499 animals thus far which is nearly as many (511) as found new homes in all of 2021-22.
- We continue to work through pandemic challenges as additional team members fell ill
 during the period although none were infected at SVACA. Staffing challenges also
 continued due to illness and being short two team members. We continue to do our best
 to keep everyone healthy as we recruit in an effort to make our team whole.

OUTREACH

- Fundraising
 - o Giving Tuesday raised \$4,135. The year-end appeal saw an influx of last-minute donations, finishing 2022 with a total of \$23,090.
- Volunteers
 - We held a volunteer orientation in December and onboarded 39 recruits.
 - o 19 volunteers attended our dog mentoring class in December.
- Marketing
 - We ran a Fall in Love adoption campaign for the first few weeks of November.
 - Our Home for the Holidays adoption special ran from November 26 through January 8. A local pet supply company, Petlibro, partnered with SVACA to give a water fountain, automatic feeder or electronic mouse to each adopter.

Our Home for the Holidays partnered with Petlibro for free giveaways with an adoption. The promo was advertised on the Great America sign.

- Outreach
 - o Our Kiddies 2 Kitties program hosted a Brownie Troop on November 30.
 - o We attended the Santa Clara Tree Lighting at Central Park on December 2.

Brownie Troop visits for a Kiddies 2 Kitties session and earned their Pet Badges.

Miscellaneous

We have continued to rescue dogs from local shelters and rescue partners. The dogs are getting adopted quickly and it's a win-win, not only for the dogs (and SVACA) but for the shelters that are overpopulated and need the help. Since the start of the California All for Animals grant cycle on September 1, we've brought 30 dogs into our program.

SHELTER TEAM

- The following are a sampling of adoption cases that highlight the good work that staff does in an effort to find lifelong homes for all of our animal guests.
 - Maple was found along with her 2 siblings in a potted plant at a local Home Depot. Animal Control Officer Morris was able to safely secure Maple and her siblings and bring them back to SVACA. After being in foster care, Maple was adopted the same day she was available. Her adopter reports that Maple is enjoying her warm cozy home and is getting all of their love.

Sweet as maple syrup!

Maxwell was found roaming the streets and after Project Reunite yielded no results, he was quickly adopted to a wonderful family who simply adores him. Maxwell's family reports he is thriving in his new home and is a dream come true.

Maxwell loves posing for the camera!

MEDICAL TEAM

- The following are a sampling of the good work that our medical team does day-in and out as we attempt to make sick and injured animals healthy so they can be adopted, released to a placement partner, or returned to their owner.
 - Ring worm infections are not uncommon but it is a lesser seen infection at our Center. Two kittens, both under one pound, arrived in November after being trapped in a Campbell neighborhood. They were underage, showing signs of an upper respiratory infection and had patchy hair loss which was indicative of a fungal infection. They started on medication for their kitty colds and skin infections; the

diagnostic testing soon confirmed the fungus was among us. A few days later, a cat in the adoption gallery was showing signs of skin lesions. We knew this was unrelated as the incubation period is 2-4 weeks. Coco was moved from adoptions, tested, bathed and started on medication; her roommates had the same fate due to exposure. A week into treatment, two kittens were found on the Stevens Creek trail with signs of upper respiratory infection and skin lesions. The pair was immediately tested, bathed and started on medication, joining our ring worm ward. A few weeks into treatment Percy found himself the first to be given the all clear and head back to adoptions; he was followed by Coco a week or so later. Both found forever families over the holidays. The end of December, and 2022, saw four more patients released who are awaiting spay and neuter surgeries so they, too, can find their forever families.

They made it Home for the Holidays!

In mid-December, SVACA was called out to a pet store in Campbell as a stray kitten had been found. The kitten was cold, listless and emaciated. Medical staff were very concerned and had a guarded prognosis. She was monitored closely during the day and seemed to be stabilize with warmth and fluids. She was also syringe fed and started on an antibiotic for her upper respiratory infection. One of the RVTs took her home overnight to continue the feedings and fluid therapy. The team was elated the following morning when she arrived, up and alert! We knew she wasn't out of the woods but she was definitely headed in the right direction. Guadalupe has spent the last few weeks in foster care and should be ready for surgery in the coming weeks.

What a difference a foster home makes!

FIELD SERVICES TEAM

 In Mountain View, Officer Morris responded to a report of an owl sitting on a fountain in the pouring rain. The owl was soaked from the rain and was barely moving. Officer Morris carefully towel dried the owl and transferred her to the Wildlife Center of Silicon Valley.

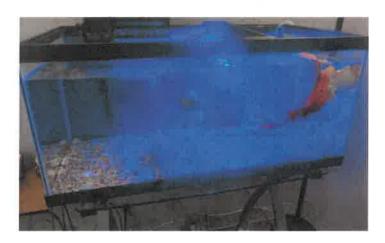

This wise one needed our help.

o In Santa Clara, Officer Gonzalez responded to a report of an opossum stuck on a rock in the middle of a decorative fountain. She wadded into the water and retrieved the cold and scared opossum. The opossum was transported to the Wildlife Center of Silicon Valley.

Cold and stranded no longer.

o In Santa Clara, Officer Gonzalez responded to a report of an aquarium in the lobby of a business containing 4 fish in a small aquarium. The owner was educated and provided with a notice advising them of the requirements for proper care. A few days later, Officer Gonzalez returned and observed the fish in a much more appropriate tank.

Finally able to stretch our fins!
