- Services Report- March 2024

SERVICES REPORT – March 2024

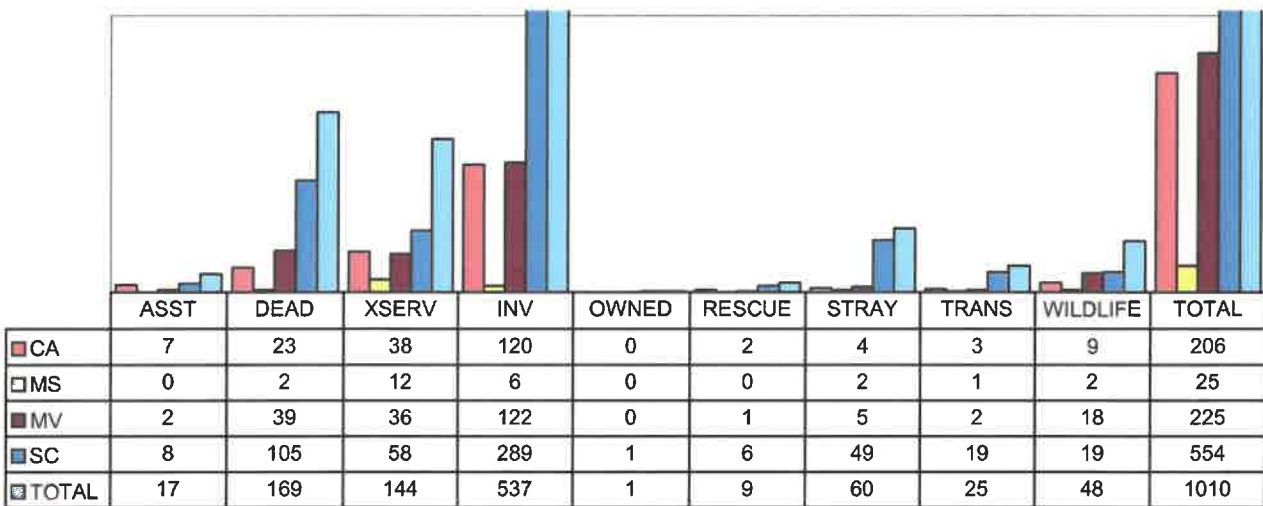

Introduction

This report provides graphs, tables and explanatory narratives covering five categories of information: field service calls, violations and citations issued, animals impounded, animals licensed, and animal outcomes. SVACA’s fiscal year is July 1 – June 30.

1. Field Service Calls

Graph 1 is total service calls by Jurisdiction and Type and Graph 2a and 2b show the Sub-Types. Tables 1 and 2 are a comparison of fiscal years 2023-24 and 2022-23.

Graph 1 - Total Service Calls by Jurisdiction and Type for January/February FY 2023-24

ASST = ASSISTANCE XSERV = EXTRA SERVICE CALL INV = INVESTIGATIONS TRANS = TRANSPORT

Year to Date Comparison of Service Calls for FY 2023-24 and FY 2022-23

5. Animal Outcomes

The following tables reflect how our dogs and cats were outcomed at the center for the reporting period. The following is based on the Asilomar Accords (www.asilomaraccords.org) which were generated by animal welfare professionals as a way for agencies to accurately report a “Live Release Rate,” or how many animals had favorable outcomes. It also reports and categorizes why animals were euthanized. SVACA places all “healthy” and “treatable” animals as well as many “unhealthy” animals. SVACA’s Animal Care Center is “no kill” as we annually save greater than 90% of animals received.

ANIMAL CARE CENTER ACCOMPLISHMENTS AND HIGHLIGHTS

OUTREACH

- Fundraising
 - We participated in the Pet Food Express Big Fix campaign, in which ten municipal shelters across the state receive proceeds of the sale of Big Fix Friend toys. Funds will be designated for the Spay and Neuter program.
 - Thanks again to Pet Food Express, we received \$2,611 in gift cards to use for food and supplies for the animals.
 - We submitted the final report for California for All Animals Grant received in 2022. All funds were expended and helped bring in and adopt 83 dogs from high risk shelters in the area.
- Volunteers
 - We trained and initiated 37 new recruits and held two dog mentoring classes.
 - We honored our wonderful volunteers with a Volunteer Appreciation Luncheon on February 10. It was well attended and awards were given for outstanding service.

Our wonderful volunteers were thanked and honored for all they do for SVACA.

- Marketing
 - We ran an adoption special in February that coincided with the San Francisco 49ers going to the Super Bowl.

Our Touchdown special helped some harder-to-place fur babies find homes!

- Outreach
 - Our Kiddies 2 Kitties program entertained several students during the first two months of the year.
 - We had a group of 15 brownies visit in January for an educational presentation and hands-on experience with the kitties.

We entertained a large girl scout troop, who not only collected needed supplies, but garnered monetary donations as well.

SHELTER TEAM

- The following are a sampling of adoption cases that highlight the good work that staff does in an effort to find lifelong homes for all of our animal guests.
 - Our team went to work quickly on Taro and Sugar who were found as newborn kittens. They were placed into a foster home to receive care. When they returned to the center, they were happy, healthy, and quite the dynamic duo. Their adopters immediately fell in love and now reports they are a supreme fit in their household.

Taro and Sugar: Double the purrs, double the fun!

- Chester was found as a stray in Santa Clara. We conducted Project Reunite in hopes of finding an owner, but no one came forward. Chester showed himself to be a sweet boy and found his fur-ever home shortly after being placed for adoption. Chester's adopters have voiced that they are very lucky to have him and wanted to send their deepest thanks to everyone at SVACA.

How lucky for Chester to have found his "paw"-fect match!

MEDICAL TEAM

- The following are a sampling of the good work that our medical team does day-in and out as we attempt to make sick and injured animals healthy so they can be adopted, released to a placement partner, or returned to their owner.
 - In early January, six very young pit bull pups made their way to SVACA by way of the Santa Clara Fire Department. These little ones were about 4-5 weeks old and in need of foster care due to their age. We were fortunate to have several first-time foster families offer assistance and take them into their homes. Kobe, a male brindle pup, was back to SVACA a week or so after heading to foster as he was a little quieter than the foster expected him to be and seemed to have an upper respiratory infection. Kobe spent the day with us in the clinic to be seen by our veterinarian and was started on antibiotics. He was boisterous and full of puppy vigor the next morning and returned to his foster home to finish his course of medication. He returned to the center in early February and headed to the adoption gallery; finding his forever home shortly after settling in.

A tiny tyke joining the big leagues!

- Just as all the firehouse pit bull pups headed into foster, mid-January brought a single chihuahua pup to SVACA. Weighing in at just under 2 pounds, she was around 5-6 weeks old and also needed foster care. She headed home with a foster family for what became a medical adventure! After about 10 days in the home, circular lesions consistent with a fungal infection surfaced. The diagnostic light test performed was ambiguous but microcopic evaluation of the hairs indicated the infection. Cultures were started and treatment began; during treatment, a secondary dermatitis presented and she is currently completing a round of antibiotics in combination with medicated baths to clear the infection. Her tiny but mighty spirit was not hindered and, now off quarantine, she is trying to play with the cats through her play pen, play with the children in the household and get as much “in a lap” time as she can. She will be heading into the adoption gallery in late March to find her forever family.

Waiting out the ringworm blues!

FIELD SERVICES TEAM

- In Monte Sereno, Animal Control Officer (ACO) Morris responded to a report of an injured bobcat. The bobcat was quickly located and determined to be approximately 3-4 months old. The cub was severely dehydrated and suffered from mange on her face. The bobcat was carefully placed into a carrier and transported to the Wildlife Center of Silicon Valley for care.

It's not every day we deal with a bobcat but SVACA ACOs are always prepared!

- In Campbell, Animal Control Officer (ACO) Martinez responded to a report of an opossum that was trapped inside a garage. Finding the opossum was not an easy task because they are really good at hiding. After a few minutes of searching, the opossum was located and later released into the neighborhood.

He may have been good at hiding, but SVACA ACOs are excellent seekers.

- In Santa Clara, ACO Morris responded to a report of a chicken running around Maywood Park. The reporting party was able to get the chicken confined to a box. Officer Morris recognized the rooster belonging to a person that she had just investigated previously. She returned the rooster to the owner who immediately rehomed the rooster to be in compliance with Santa Clara City Code.

Beautiful, but quite chatty.

- In Mountain View, ACO Morris, responded to a report of a hummingbird that was unable to fly. When Morris arrived on scene, she quickly located the bird. An attempt was made to feed the hummingbird in hopes that she would regain her strength and be able to fly. After several attempts to fly with no luck, the hummingbird was transferred to the Wildlife Center of Silicon Valley for care.

Feed me, please! Your wish is our command.
