## SERVICES REPORT – May 2024

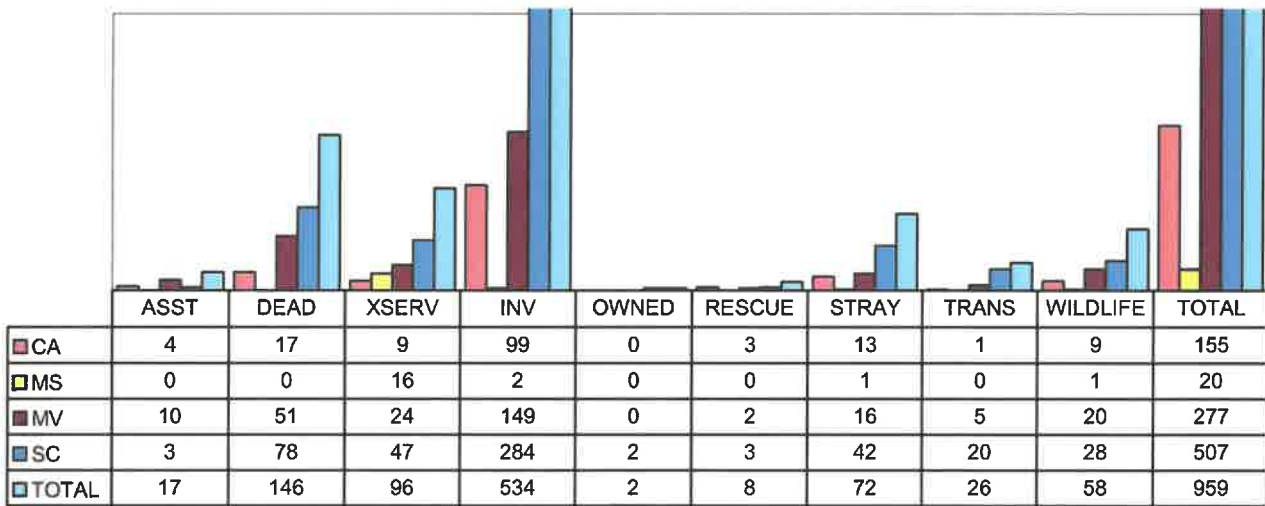

### Introduction

This report provides graphs, tables and explanatory narratives covering five categories of information: field service calls, violations and citations issued, animals impounded, animals licensed, and animal outcomes. SVACA’s fiscal year is July 1 – June 30.

### 1. Field Service Calls

Graph 1 is total service calls by Jurisdiction and Type and Graph 2a and 2b show the Sub-Types. Tables 1 and 2 are a comparison of fiscal years 2023-24 and 2022-23.

**Graph 1 - Total Service Calls by Jurisdiction and Type for March/April FY 2023-24**

ASST = ASSISTANCE      XSERV = EXTRA SERVICE CALL      INV = INVESTIGATIONS      TRANS = TRANSPORT

### Year to Date Comparison of Service Calls for FY 2023-24 and FY 2022-23

**5. Animal Outcomes**

The following tables reflect how our dogs and cats were outcomed at the center for the reporting period. The following is based on the Asilomar Accords ([www.asilomaraccords.org](http://www.asilomaraccords.org)) which were generated by animal welfare professionals as a way for agencies to accurately report a “Live Release Rate,” or how many animals had favorable outcomes. It also reports and categorizes why animals were euthanized. SVACA places all “healthy” and “treatable” animals as well as many “unhealthy” animals. SVACA’s Animal Care Center is “no kill” as we annually save greater than 90% of animals received.

# ANIMAL CARE CENTER ACCOMPLISHMENTS AND HIGHLIGHTS

## OUTREACH

### Foster & Volunteer

- Since April, we've welcomed 13 new foster volunteers who have been instrumental in caring for the influx of kittens we're receiving.

*Amazing long-time volunteer Suzanne with curious kitty Dash.*

### Outreach

- Through our Kiddies to Kitties (K2K) reading program, we have welcomed cub scouts, girl scouts, and other young animal lovers to read with kittens at our center.
- Recently, we visited three 3rd-grade classrooms at Stevenson Elementary School in Mountain View. We presented about SVACA's mission, programs, and services, as well as information about basic animal care and companionship.
- Our friends from Suha Suha, a local art group, stopped by in April to put up their spring and summer decorations.

*Left: Suha Suha members with their springtime creation! Right: Two Cub Scouts enjoying an afternoon with kittens during Kiddies to Kitties.*

### Events

- We participated in Arbor Day in Santa Clara, where our kittens Tiger and Moon Cake were greeted by about 150 students, officers, local agency members, and more. They were adopted by a family they met at the event.

*Santa Clara Officers and little animal lovers hanging with Tiger and Moon Cake!*

### Companion Animal Cupboard

- Our Companion Animal Cupboard continues to assist low-income residents by providing essential food supplies for their furry companions.

*The companion animal cupboard is fully stocked up!*

Marketing:

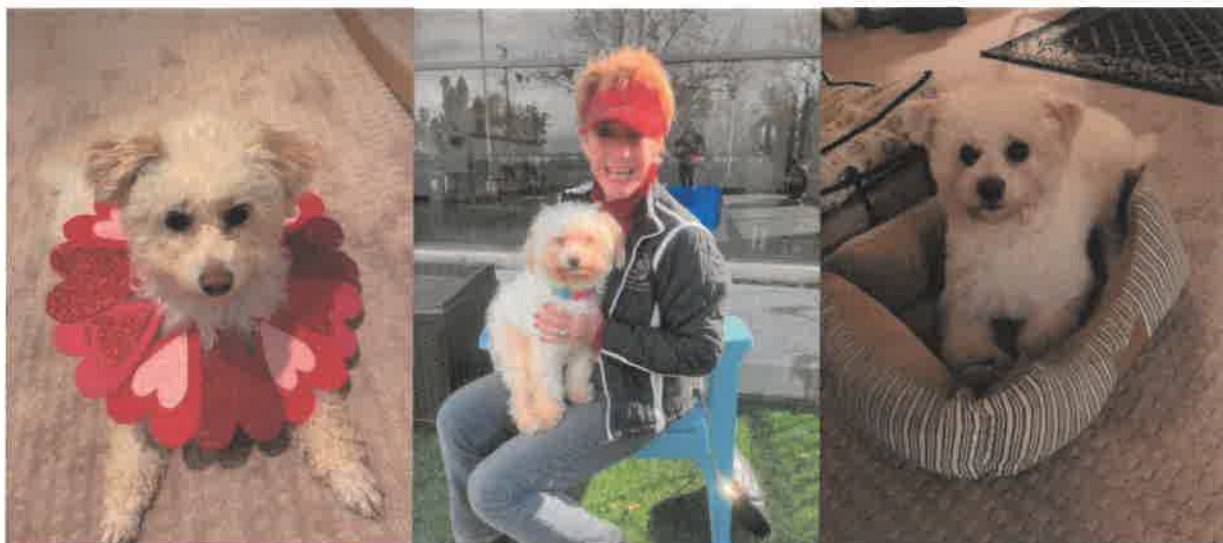

- In March, adopters had the chance to spin our prize wheel for rewards like reduced adoption fees and SVACA t-shirts. April saw our "Spring Into Love" promotion, offering a 50% discount on select adoption fees.

*Our two adoption promotions helped some of our animals like Saffron find loving homes.*

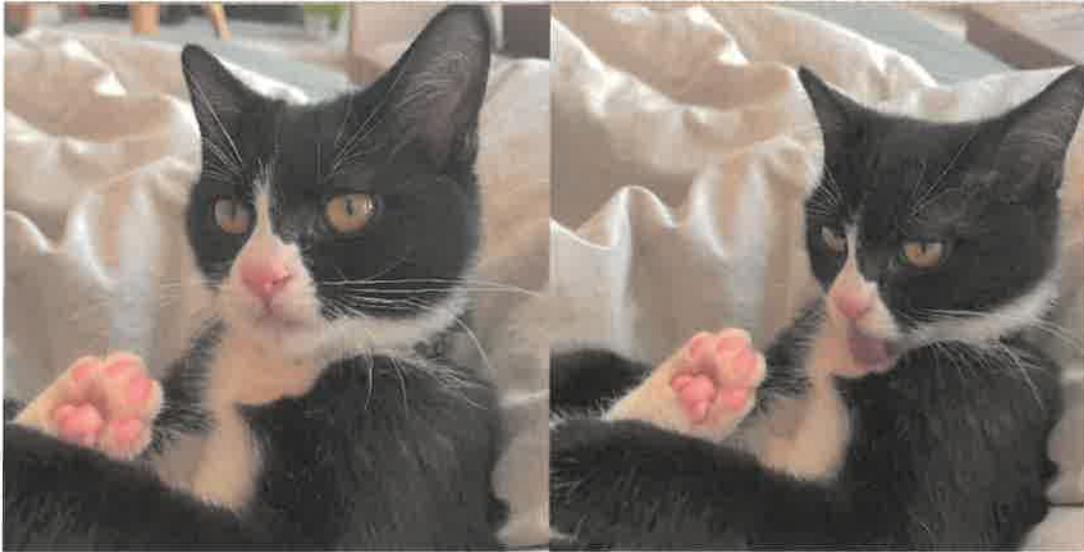

### SHELTER TEAM

- The following are a sampling of adoption cases that highlight the good work that staff does in an effort to find lifelong homes for all of our animal guests.
- Sweet little Ladybug was transferred to SVACA from an overcrowded animal shelter. She needed a spa day and staff members promptly bathed and groomed her to get ready for make her debut in our adoption gallery. Ladybug made her way into her new mom's heart and was adopted in no time. Ladybug's new family is simply smitten with her and describes her as the most loyal, smart and loving dog she has ever owned.

*Three cheers to Ladybug!*

- Sardine is a beautiful 5-month-old tuxedo kitten that was found in the city of Mountain View. During her stay at SVACA she had boundless amounts of energy. She charmed her way into her forever home and her adopters tell us that Sardine's zest for life puts a smile on their faces everyday.

*The many faces of Sardine!*

### **MEDICAL TEAM**

- In March, a trio of pups were brought to SVACA after being abandoned on a resident's property in Santa Clara. The pups were about 3 months old and full of energy. Staff noticed a small area of thin haircoat on each of the female pups. There are multiple reasons thin hair coat or hair loss can present, the most common being parasites. As they had been treated with flea control at intake, the medical team monitored the areas for any changes. A diagnostic test was performed and demodex mites were found to be present. The litter was treated with a topical medication to eradicate the parasite and they have since found their forever families.

*Double trouble, but so much fun!*

- Through the months of March and April, more pups arrived and were cared for by SVACA staff and foster families. Viola, a chihuahua/dachshund mix, and her 3 pups arrived at SVACA during this period. We were able to get them into foster care to work through the growing pains of joyfully rowdy babies Noodle, Kannama and Kaadhu. They

were seen routinely in the medical department for deworming, and once for a soft tissue injury sustained by Noodle when playing too hard. All four members of this little family came back to the Center for adoption and have gone on to find new families to call their own.

*Four of a kind... kind of!*

- In April, a litter of kittens arrived with their mom after a Santa Clara resident had seen them and was worried about mom's health. The medical team monitored mom (and babies, of course) and she showed signs of a mild upper respiratory infection, which is quite common in cats. She was treated with an antibiotic before heading into foster care. After settling in with her foster family, she started having some GI upset. Medical staff was able to coordinate a probiotic treatment which did the trick; many times, GI issues are linked to stress as opposed to a bacterial infection, especially after taking antibiotics. Mom has returned to SVACA to await surgery, while her litter is still in foster care to play to their hearts' content for another few weeks.

*Ready for some time away from the kids!*

## **FIELD SERVICES TEAM**

- In Santa Clara, ACO Castro responded to a report of a dog in a crate on the side of the road. He found 2 plastic milk crates tied together with yellow rope. Inside was a small tan colored chihuahua mix. The dog barked aggressively when he approached the crate. Once out, his behavior changed and was a very friendly young pup. No leads developed through Project Reunite and he was named Orion. He is now waiting patiently for his forever home.

*Safe at last! Good luck Orion.*

- In Campbell, Field Services Manager Pedrotti responded to a report of a kitten that was trapped in a storm drain. He was able to hear the kitten but unable to see it. Kitten sounds were played on his cell phone in hopes of luring the kitten out. The kitten in the drain showed interest by meowing back but never made an appearance. A humane trap was lowered into the drain with some wet cat food as bait. The reporting party offered to monitor the trap. About 5 hours later SVACA received a call that the kitten was in the trap. Due to her young age, she was sent to a foster parent for a little socializing and TLC.

*Safe and sound. See you soon little one.*

- In Mountain View, ACO Castro responded to a report of eleven ducklings in a drain. With the help of the Mountain View Public Works Department, all eleven ducklings were rescued from the drain and reunited with their mom. They were led away from the drain to a more appropriate area.

*Not sure who was happier, the mom duck or Officer Castro!*
