- Services Report- November 2024

SERVICES REPORT – November 2024

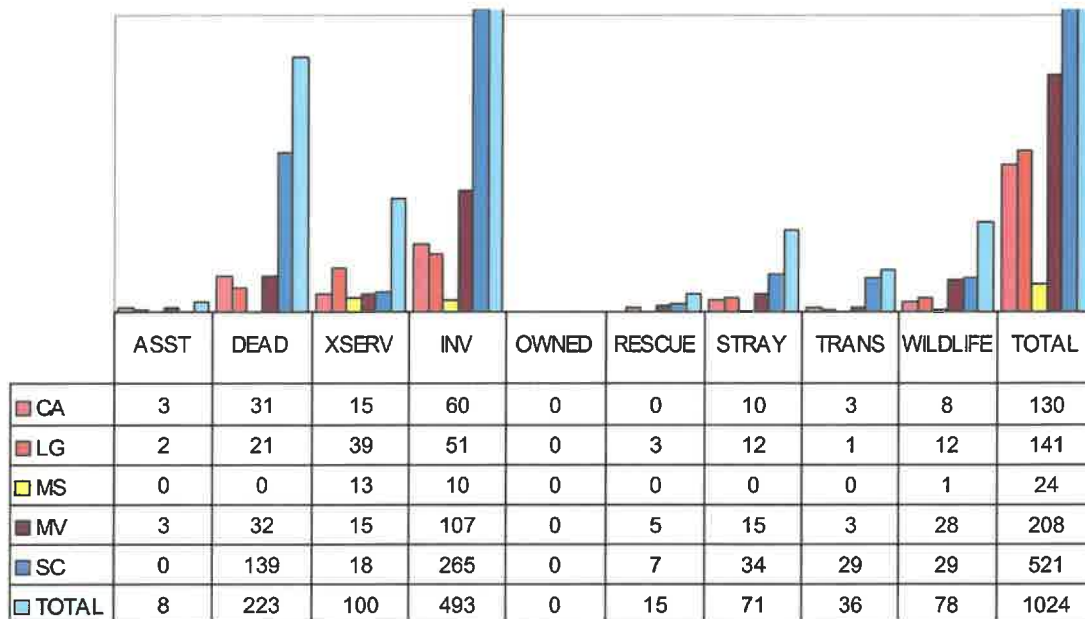

Introduction

This report provides graphs, tables and explanatory narratives covering five categories of information: field service calls, violations and citations issued, animals impounded, animals licensed, and animal outcomes. SVACA’s fiscal year is July 1 – June 30.

1. Field Service Calls

Graph 1 is total service calls by Jurisdiction and Type and Graph 2a and 2b show the Sub-Types. Tables 1 and 2 are a comparison of fiscal years 2024-25 and 2023-24.

Graph 1 - Total Service Calls by Jurisdiction and Type for September/October FY 2024-25

2. Response Times September/October 2024

The following shows response times based on the priority level of the calls for service.

The following is a sampling of the most common types of calls responded to for the various priorities.

Priority 1 (within 30 minutes): Person at Risk or in Danger (police department assistance, animal to human bite in progress, aggressive animal in progress)

Priority 2 (within 30 minutes): Animal at Risk or in Danger (injured or sick animal, active animal abuse, animal in hot vehicle)

Priority 3 (within two hours): Non-Emergency (confined stray domestic animal)

Priority 4 (within 12 hours): Non-Emergency (transfer of animal to/from offsite veterinarian, transfer to another agency)

Priority 5 (within 24 hours): Normal (stray roaming domestic animals, deceased animal removal, code enforcement, animal neglect, patrols)

Priority 6 (within 45 minutes): After Hours Emergencies (police department assistance, injured or sick animal)

Table 3. Response Times for 09/01/2024 to 10/31/2024

6. Animal Outcomes

The following tables reflect how our dogs and cats were outcomed at the center for the reporting period. The following is based on the Asilomar Accords (www.asilomaraccords.org) which were generated by animal welfare professionals as a way for agencies to accurately report a “Live Release Rate,” or how many animals had favorable outcomes. It also reports and categorizes why animals were euthanized. SVACA places all “healthy” and “treatable” animals as well as many “unhealthy” animals. SVACA’s Animal Care Center is “no kill” as we annually save greater than 90% of animals received.

ANIMAL CARE CENTER ACCOMPLISHMENTS AND HIGHLIGHTS

OUTREACH

Foster & Volunteer

- In September and October, we welcomed 38 new volunteer animal socializers to our team, along with 7 new enrichment volunteers who provide activities to help reduce boredom and stress for our animals.
- The kittens are still coming! In October, we onboarded 8 new foster families to help care for all the young kittens arriving at our Animal Care Center.

Sawyer soaking up the sun (and pets!) with volunteer Tisha.

Outreach

- We expanded our Kiddies to Kitties (K2K) reading program to run every Wednesday, rather than just on the first and third Wednesdays. In September and October, 31 kids aged 5 and up visited our Animal Care Center to learn about cat and kitten behavior. After a brief introduction, they spent 1.5 hours socializing with and reading to the adoptable kittens.
- In September, the local art group Suha Suha completed and installed artwork in our dog and cat adoption galleries. Their goal is to brighten our Animal Care Center even more and add to our joyful, welcoming environment for all visitors. The group crafted portraits of various dogs and cats using rope and paint on canvas.
- In October, 12 high school students from Granada Islamic School in Santa Clara visited our Animal Care Center to learn more about our work and to meet and socialize with our dogs and cats. For some of the students, it was their first-time meeting animals, and they enjoyed spending time with Dory, an adoptable dog, as well as some adorable kittens.

Left: Suha Suha students with their latest artwork. Right: Making new friends with Dory!

Events

- In September, we attended Santa Clara's Art and Wine Festival, bringing kittens for the public to meet and pet, along with one of our animal rescue vans for visitors to explore.
- In October, we walked and drove an animal rescue vehicle in Santa Clara's Historic Parade of Champions.
- Later that month, we brought kittens, a prize wheel, and many enthusiastic volunteers to talk about our programs and services at Campbell's Oktoberfest.

The kittens were the stars of the show!

Marketing

- In September, the surf was up at SVACA! As the warm weather continued on, so did our adoption promotion which reduced adoption fees of select animals to \$25, \$50, or \$75 plus a mystery gift!
- In October, we encouraged folks to Fall in Love with a new furry family member by waiving dog adoption fees and reducing cat adoption fees to \$25 for select animals.

So many adorable dogs and cats waiting to start their next chapter!

SHELTER TEAM

- The following are a sampling of adoption cases that highlight the good work that staff does in an effort to find lifelong homes for all of our animal guests.
 - Everest, a spirited 3-month-old puppy, was found wandering the streets of Santa Clara. After being rescued and placed up for adoption, his sweet face caught the eye of a loving family who, after seeing his picture online, drove three hours just to meet him. It was love at first sight! Now, Everest is enjoying his new life in his forever family, including two larger canine companions. He formed an especially close bond with Peanut, the senior dog of the household. They love running and playing together every day, filling their home with joy and energy. Everest may be young, but he's already proven he's full of heart!

Everest the Puppy—Climbing into Hearts, One Tail Wag at a Time!

- Fluffy is a sweet kitten who was found in Santa Clara when he was just a few days old. Thanks to the loving care of our team, Fluffy was nursed back to health and quickly found his forever home. His new family instantly fell in love with him and chose the name Fluffy to match his adorable personality and beautiful fur coat. As their very first cat, Fluffy has brought joy and warmth into their lives. Their young daughter took a special role in setting up Fluffy's new space, carefully choosing his bed, toys, and dishes. She now lovingly tends to Fluffy's every need, learning the importance of responsibility and care in the process. Fluffy is truly adored and has become an irreplaceable member of the family.

Fluffy the Kitten—Bringing Purrs and Cuddles to New Heights!

MEDICAL TEAM

- The following are a sampling of the good work that our medical team does day-in and out as we attempt to make sick and injured animals healthy so they can be adopted, released to a placement partner, or returned to their owner.
 - Curly, a senior wire-haired terrier mix, arrived after being spotted snoozing in front of a Mountain View salon by a resident walking her own dog. When no one in the area had any information about him, the resident brought him to SVACA. Curly, an older gent, was in need of some dental care. During his neuter, some loose teeth were extracted and large amounts of tartar were also removed; he was started on antibiotics to address the infection present. We were happy to see him head from to a senior focused placement partner with adopters looking to pamper older dogs who need special medical attention!

Ever the distinguished gentleman!

- Cora arrived with her litter of 7(!) with mom from a Santa Clara neighborhood. Cora was the smallest and weakest of the bunch, weighing only about half of what her siblings weighed. Mom was doing her best but the demands of seven kittens appeared to be just too much. Cora and another of the smaller kittens (Candy) were sent to foster with a bottle baby home. The two took a while to put on weight but were happy and affectionate while doing it. The biggest boys in the group returned from foster a month ahead of the smallest ladies. Cora and Candy returned soon enough and all found their forever homes!

From clinging on to rarin' to go!

FIELD SERVICES TEAM

- In Los Gatos, Animal Control Officer (ACO) Morris and Field Services Manager Pedrotti responded to a report of an injured deer near a construction site. She was carefully placed into a rescue vehicle and transferred to the Peninsula Humane Society and SPCA for care.

Big or small, SVACA ACOs care for them all!

- In Santa Clara, ACO Castro responded to a stray roaming dog. The dog was quickly located but was very fearful. An attempt to contact the possible owner was made but there was no answer at the door. A business vehicle was in the driveway with a phone number on the door. He called the number, and they knew who owned the dog and the owner showed up 10 minutes later. The owner was issued a notice requiring proper confinement at all times.

Hopefully this little guy won't try that again.

- In Mountain View, ACO Castro responded to a report of an opossum that had fallen into a swimming pool and was unable to get out. The reporting person was unsure how long it had been there. ACO Castro was able to safely remove the opossum from the pool and transfer her to the Peninsula Humane Society and SPCA for care.

Every end of the pool is the deep end for this little guy.

- In Los Gatos, ACO Castro responded to a report of a small kitten stuck in a storm drain on Los Gatos Boulevard. With the help of a Los Gatos Public Works employee, they were able to capture the kitten. The kitten was transferred to a placement partner and made available for adoption in their barn cat program.

Dangerous place for a kitten to be.

- In Los Gatos, ACO Morris responded to a report of an injured coyote. The coyote ended up being a 3–4-month-old fox, was confined to a carrier and transferred to the Peninsula Humane Society and SPCA for care.

Once again it was SVACA to the rescue!

- In Monte Sereno, Field Services Manager Pedrotti, responded a report of an aggressive snake in the garage of a home. Upon arrival the reporting person took him to a blanket on the floor in the garage and advised that the snake was under it. He slowly picked up the blanket and located a king snake that was approximately 2 feet in length. He removed the snake from the garage and placed it in some open space behind the home.

California king snakes are often found in our neighborhoods.
